

Invitation to CCI, Europe, 2026 in Hungary In the Heart of Europe

at St. Andrew's Castle Hotel, in Bőlske, Hungary.

CCI: August 9–15.

Teachers' workshop: August 7–9.

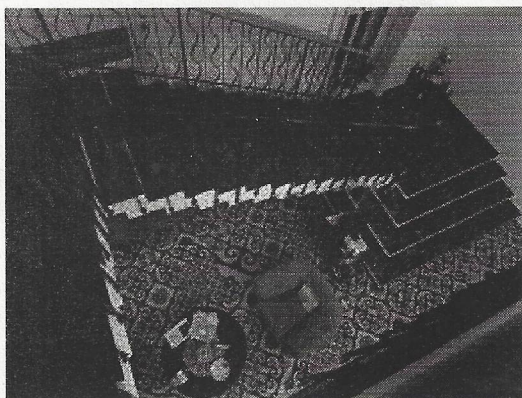

CCI-Europe 2026 is hosted by the Hungarian Co-Counselling community. We have been an active group since 1985, initiated into "life" by our dedicated teacher, Mary Corr. We kept it in a flow by an ongoing team of a few dedicated co-counsellors and refreshed by a few new people joining us. As usual, we will organize a CoCounselling Teachers' Learning Gathering as well that is open to all co-counsellors. Our calling theme for both events is

Inner Compass in Times of Change and Transformation

How can Cocounselling serve the growing need for mindful presence, clarity and deep inner work in times of turbulence, uncertainty and growing fear in many?

Dear Fellow Co-Counsellors, Friends, and Explorers of Pathways to Inner Truth, Integrity and Transformative Presence

In a world that often spins with unpredictability—externally loud, fast, and fragmented—there remains a steady pulse deep within us. A quiet truth. A living presence. A knowing.

We invite you to inquire into this depth together and in a safe and shared space in the serene grounds of *Saint Andrew's Castle and Park*. Let us gather in the spirit of shared discovery and deep connection. Your **inner compass** is the intuitive force within—a synthesis of feeling, history, values, and embodied wisdom. It comes to life when we have worked on our obstacles woven from the threads of our individual and collective wounds, distresses, pains and hurts.

It is what you turn to when the maps fade. It orients you when language falters. It realigns you when the external world seems to pull in ten directions at once.

From Budapest to Bölcske by car, by bus and train, by taxi. We will also organize a coach from the city center as well.

My leader controls me from within!

We are humans, not beasts --

we are minds! Our hearts, while we desire,

not data in a file.

Come, freedom! You give birth to an order for me,

educate with nice words, and let me play too,

your handsome, serious son!

Attila József

Let us navigate from within—together.
